13th Minisymposium Chemical and Process Engineering

4th Austrian Particle Forum

welcome.

The Minisymposium Chemical and Process Engineering is a well-established event with the aim to connect chemical engineers all over Austria. It is held by turns at JKU Linz, MU Leoben, TU Wien, BOKU Wien and TU Graz with interesting contributions presented by junior and senior researchers from academia. It is a special honor that in 2017 the 13th Minisymposium Chemical and Process Engineering will take place at MCI in Innsbruck and we are looking forward to welcome you in Tyrol.

Additionally to the Minisymposium we will also host the 4th Austrian Particle Forum. Presentations will come from researchers active in the fields of particle handling, processing manufacturing and classification; food and pharma; fluid-particle separation processes; and fibres processing.

Dr. Andreas Altmann
Rector MCI

FH-Prof. DI Dr.-Ing. Michael Kraxner
Head of R&D and
Technology Transfer

submission.

Junior and senior researchers (MSc and PhD students, PostDocs, Senior Researchers, or Professors) are invited to submit their contributions to the Minisymposium and Austrian Particle Forum – either oral presentation or poster.

MINISYMPOSIUM

- For oral presentations please submit an extended abstract (exactly 4 pages). One presentation will be 20 minutes.
- For poster presentations please submit a short abstract (1 page). The poster presentations will be max. 3 minutes each.

AUSTRIAN PARTICLE FORUM

- For oral presentation please submit a short abstract (1 page). One presentation will be 5 to 10 minutes.

The submission will be handled online. It is required to use the template provided on the webpage, only DOC-files are accepted. Please visit www.chemical-engineering.at

deadlines.

Call for contributions:	31.12.2016
Notification of Acceptance:	20.01.2017
Registration possible until:	15.03.2017
